

▶ **A dedicated connection to our exclusive IP network can fulfill all your connectivity needs.**

Safe, reliable communication is more important now than it has ever been – and more complex. Pinpoint's IP Connect service gives you secure, dedicated access to our own IP network. With IP Connect, you'll have single-source benefits for a variety of communications services, including, dedicated Internet access, local and long distance calling via VoIP, IP voicemail, fax capabilities, the ability to share computing resources within an organization – a virtual supercomputer, and access to Pinpoint Data Center services.

Unlike systems that require you to house your own mission-critical servers and have two secure connections – one to your ISP and one to your telephone company – the IP Connect solution combines virtually all of your communications needs into a single, quality-guaranteed package.

▶ **Benefits**

• **HIGH SPEED, HIGH CAPACITY.**

Pinpoint's access to two separate Tier 1 IP backbones at speeds up to 10Gbps improves productivity by transmitting more data at higher speeds.

• **HIGHER VOICE QUALITY.**

We control the quality of the call from end to end for quality comparable to traditional phone systems.

• **IMPROVED SECURITY.**

By housing your servers offsite in the Pinpoint Data Center, mission-critical data is always available, yet is as safe and secure as currently feasible.

• **EXPANDABILITY.**

As your needs grow, IP Connect allows you to expand bandwidth to almost any capacity.

• **REDUCED COSTS.**

Bundling all your connectivity requirements for voice, data, fax, Internet, email and voice mail into a single package simplifies management and lowers costs.

About Pinpoint

Phone: 866.500.6924 • **Web:** www.pnptnetworks.com

Pinpoint Network Solutions is a Nebraska-based provider of telecommunications and data center services. Among our assets is a private, non-compromised local fiber-optic network for the Omaha area as well as regional fiber-optic networks linking Denver and Chicago, and Chicago to St. Louis, Memphis and New Orleans. Our local and national interconnection agreements for private line and Internet peering enable a global reach for unparalleled data speed, security and integrity. We serve major clients in the corporate, educational and government sectors, offering exceptional technical expertise and highly-customized solutions to meet individual needs. Our commitment to customer service insures high system reliability, rapid response to problems, and innovative options and solutions. **Pinpoint Network Solutions. We're how opportunity connects.**
