

▶ **Optimal phone/data service without the high cost of multiple analog phone lines.**

Integrated Services Digital Network (ISDN) is a circuit-switched telephone network system allowing digital transmission of both voice and data over ordinary copper phone lines. The benefits include better voice quality, higher data transmission speeds and access to features such as intelligent call handling and caller ID functionality.

ISDN improves efficiency and productivity because it can deliver up to 23 connections in any combination of voice, data, video and fax over a single line, thus reducing or eliminating the need for multiple analog phone lines.

Using T1 lines and a Primary Rate Interface (PRI) to communicate with any Telco Class 5 central office switch, Pinpoint's ISDN offers a seamless transition from legacy phone systems.

▶ **Benefits**

- **HIGH SPEED, HIGH CAPACITY.**

ISDN's increased bandwidth improves productivity by transmitting more data at higher speeds.

- **SUPERIOR QUALITY.**

Digital transmissions provide exceptionally clear voice communications as well as virtually error-free transfer of video, images and data.

- **CALLING LINE IDENTIFICATION.**

Gives PBX systems the capability to identify and provide directory numbers for incoming callers, allowing employees to access pertinent customer information before the call is answered.

- **EXPANDABILITY.**

As your needs grow, ISDN allows additional bandwidth of almost any capacity to be added.

About Pinpoint

Phone: 866.500.6924 • **Web:** www.pnptnetworks.com

Pinpoint Network Solutions is a Nebraska-based provider of telecommunications and data center services. Among our assets is a private, non-compromised local fiber-optic network for the Omaha area as well as regional fiber-optic networks linking Denver and Chicago, and Chicago to St. Louis, Memphis and New Orleans. Our local and national interconnection agreements for private line and Internet peering enable a global reach for unparalleled data speed, security and integrity. We serve major clients in the corporate, educational and government sectors, offering exceptional technical expertise and highly-customized solutions to meet individual needs. Our commitment to customer service insures high system reliability, rapid response to problems, and innovative options and solutions. **Pinpoint Network Solutions. We're how opportunity connects.**
