Chris Karn Named Vice President *Karn to Head* ***Pinpoint Network Solutions and Great Western*** *For Immediate Release*

Cambridge, Nebraska, May 7, 2009 -Today, Pinpoint announced that Chris Karn has been promoted from the position of Operations Manager to Vice President of Regional Markets. With more than 22 years in the cable and telecommunications industry, Karn has worked with TCI Cablevision, Charter Communications, Galaxy Cablevision and most recently, Dark Fiber Solutions, where he served as Director of Operations for four years. Prior to his time at Dark Fiber Solutions, Karn worked as Director of Operations for Charter Communications in both Nebraska and Tennessee.

Pinpoint Chief Operating Officer Ralph Armendariz said, "We're glad that Chris has accepted these additional responsibilities because Chris has a keen business sense and a track record of managing regional organizations."

As Vice President of Regional Markets, Karn will oversee the sales teams and operations of both the Network Solutions division of Pinpoint, which sells long haul fiber, data center and other communications services, as well as that of Great Western Communications, a Pinpoint affiliate, which markets microwave connectivity and associated services from Denver, Colorado through the Pacific Northwest.

Karn, who lives in Grand Island, Nebraska, sits on the boards of the Grand Island Central Catholic High School Board and the Nebraska Cable Communications Association. Karn is also a member of the Knights of Columbus and is active with Special Olympics. Karn attended the University of South Dakota in Vermillion and has received additional training in management, public affairs and regulatory issues.

Of his new position, Karn said, “I look forward to continuing the success that Pinpoint Network Solutions has seen, and continuing to grow the Great Western network. This is a fantastic organization that is mobile, flexible and creates an environment where anything is possible. That is what is needed to stay successful in this competitive marketplace, which allows us to tailor fit any solution to any customer need. This is an exciting challenge and one that I am pleased to accept.”

About Pinpoint Network Solutions: *Pinpoint Network Solutions provides the entire array of communication services with a private, non-compromised network for that spans 19 states reaching from Seattle to New Orleans. Services provided by Pinpoint include transport, data center services and Internet. Pinpoint's IP Connect is a unique solution that allows businesses access to a dedicated, secure connection on their exclusive IP Network and provides access to all services, including transport, VoIP, data center, internet, and other mission critical applications.*

About Great Western Communications: *Great Western Communications, LLC operates a point-to-point microwave network that stretches from the Great Plains through the Rocky Mountains to Seattle as well as rights to use a route that runs from Houston to Chicago and Chicago to Amarillo. The combined routes consist of nearly 200 state of the art sites.*
