

▶ **Offsite storage of data is risk management that makes sense for today's business.**

Housing your own network servers onsite is a way of doing business that is fast disappearing. With the addition of VoIP, data and data flow is critical to many businesses, and for most, the potential of interruption or loss is not a risk worth taking.

The solution is a Pinpoint Data Center. Either an existing facility, such as that housed at the Scott Technology Center (STC) in Omaha, or a custom-built facility can be tailored to specific needs. For an affordable monthly fee, we'll house your servers and other equipment in a modern, secure, climate-controlled facility with full power backup as well as onsite monitoring 24/7/365. You'll have access to a wide variety of interconnection protocols and levels of service, as well as the racks, cabinets and cages you need to accommodate virtually any hardware configuration. Pinpoint also offers exceptional connectivity to a Level 3 enabled Tier 1 backbone for just as much Internet bandwidth as you need.

▶ **Benefits**

• **ENHANCED DATA SECURITY.**

Your mission-critical servers will be in a facility remote from your headquarters and protected from most foreseeable disasters.

• **FLEXIBLE INTERCONNECTION.**

Our onsite staff can assist with virtually any requirements you may have, including cross-connects, switch interconnects or patch panels.

• **DEDICATED INTERNET ACCESS.**

Multiple connections to two separate Tier 1 IP backbones at speeds up to 10Gbps make the Pinpoint Data Center ideal for VPN applications.

• **HIGH RELIABILITY.**

Our robust backup capabilities allow us to guarantee 99.999% uptime with a high degree of confidence.

• **TECHNICAL SUPPORT.**

Our staff of engineers and technicians can help you create the custom hardware environment that works best for your company.

About Pinpoint

Phone: 866.500.6924 • **Web:** www.pnptnetworks.com

Pinpoint Network Solutions is a Nebraska-based provider of telecommunications and data center services. Among our assets is a private, non-compromised local fiber-optic network for the Omaha area as well as regional fiber-optic networks linking Denver and Chicago, and Chicago to St. Louis, Memphis and New Orleans. Our local and national interconnection agreements for private line and Internet peering enable a global reach for unparalleled data speed, security and integrity. We serve major clients in the corporate, educational and government sectors, offering exceptional technical expertise and highly-customized solutions to meet individual needs. Our commitment to customer service insures high system reliability, rapid response to problems, and innovative options and solutions. **Pinpoint Network Solutions. We're how opportunity connects.**
